

IMPORTANT NOTICE

Please note the following when using the list:
"Status of Islands"

- (1) The purpose of this list is to disseminate information regarding status of islands as per their use and proposals received by the Department of National Planning, for submission to the National Planning Council.
- (2) Proposals are approved by the National Planning Council and all NPC approved projects for a land or lagoon must be submitted to the Ministerial Cabinet before lease agreements can be signed. Regarding proposals received, this list contains only the proposals for which a specific ISLAND has been determined and does not include when the proponent submits a proposal with a list of alternative island choices. This list does not include project for lagoons or location non-specific proposals. (a full list of all proposals submitted to DNP is also given on the website)
- (3) Proposals that are submitted for locations, for which a prior proposal has already been RECEIVED by DNP, will be asked to change location. New proposals for same location will be considered when the first project is rejected by NPC, or proponent fails to meet the deadlines given the by Government. DNP will NOT keep proposals on hold for locations. When a location becomes available, proposals will have to be submitted again.
- (4) The purpose of this list is to provide information on availability of an island/region for projects. Since the list has the data which we have to get from other relevant government organizations, it is possible that the list may not be up to date. It is a responsibility of the proponent to check the following information before submission of a project:
 - Proponent must check the STATUS OF REGISTRY (for example, long-term lease or varuva)
 - Proponent must check other projects approved by Government by other offices from that office
 - Possible sources of information:
 - The Infrastructure map published on DNP website
 - ISLES website (Presidents Office)
 - Environment Protection Agency
 - Ministry of Fisheries and Agriculture
 - Ministry of Tourism, Arts and Culture
 - Ministry of Finance and Treasury
- (5) Please note that there may be time lag between submission of proposal to DNP and updating of this file. New proposals submitted to DNP will be included in this list after we check the availability of the island, however the project may be REMOVED from the list if the project is stopped for any reason.
- (6) Proposals must be submitted in hard copy to the Ministry of Finance and Treasury counter. Proposals or Initial requests for island received by email alone will not be processed. (more information on submission of proposals is provided on <http://planning.gov.mv/en/npc/home.html>)
- (7) Proponents who submit more than one location as OPTIONS will be asked to confirm ONE location. OPTIONAL locations will not be noted for single project. Single project that include more than one optional location will not be included in this list. Only when a final island is chosen, it will be noted here.
- (8) The area given here is the area published in the Official Atlas of Maldives (printed in 2008). This area is based on satellite imagery and calculated from beach line. Area used for tax purposes may be different and will be as stipulated in tax regulations

We note that there may be errors in the file and we are continuously working to keep this file updated and correct.

2nd November 2011
